

Comcast Business PRI Trunks

COMCAST
BUSINESS
BEYOND FAST

Our Award-Winning Advanced Voice Solution

Comcast Business PRI Trunks are a switched voice trunk service that provides a physical ISDN/PRI connection from your PBX to the Comcast Network. Our PRI Trunks help you manage costs by leveraging your existing PBX system, maintain business continuity in the event of an emergency, and maximize your phone capabilities over Comcast's private IP network.

If you need a reliable, scalable trunking service to meet the growing needs of your business, Comcast Business PRI Trunks are the solution.

Cost Effective

Maximize your existing capital PBX investment and reduce voice-line spend with trunk technology.

Secure

Voice services are prioritized and network equipment is secured by 2 layers of authentication.

Scalable

Up to 8 PRI Trunks per location

Reliable

Advanced business continuity features provided on a Comcast-owned and managed network.

Services are monitored 24/7/365 with dedicated support provided through our national Network Operations Center (NOC).

Network

Comcast has the largest private VoIP network in the nation and is the fourth largest voice provider in the US.

Single Provider Value

Simplify and centralize management of your voice services and bundle with additional Comcast Business services for greater value.

The Comcast Network

No matter which Voice Solution you choose, you will have the reliable Comcast Network behind it. With over 149,000 national route miles of fiber, the Comcast Network is the largest facilities-based last mile alternative to the phone company in the country.
